A MESSAGE ABOUT OUR TEAM

We are proud to highlight the wonderful people performing the jobs at hand, as they are the key to our success.

Skyline Center's founders believed that individuals with disabilities deserved to have the same opportunities that were afforded to others. Their goal was to ensure all individuals could enjoy a higher quality of life while continuing to thrive and be a member of the Clinton Community. For the last 60 years, we have done just that and our Production facility is no exception.

Here at SCI, we have been providing industrial services such as co-packing, light assembly and order fulfillment to businesses in the Clinton area for over 56 years. Our facility is home to an integrated workforce of individuals both with diagnosed disabilities and without.

Skyline's greatest assets are our employees. We provide adequate training to ensure safety and quality remain the top priority of every job. Our visionary management team boasts an impressive number of years of experience while helping guide our staff in the right direction. They keep the team motivated and inspired to create a positive work culture. This positivity and the high value we place in our employees promotes a higher level of staff engagement, which in turn, maximizes our productivity and efficiency.

We are proud to offer you a partnership with lower production costs, outstanding customer service, and specialized equipment, components and processes, all while making a difference in the lives of our employees.

“The Production facility has a fun environment, great co-workers, and generous benefits!”

Happy Staff

SKYLINE INDUSTRIAL SERVICES

ADVANCING TECHNOLOGY AND MEETING PERFORMANCE GOALS

Skyline is a high-quality manufacturing facility that aims to deliver results and embrace new technology. Our Nulogy Pack Manager platform uses EDI, an electronic interchange of business information using a standardized format. This system allows us to exchange information electronically, digitizes the production floor, and manages the complexity of our runs. These advancements directly correlate into reducing lead times and keeping production costs low.

ECONOMIC IMPACT

- Total jobs – 262
- 172 direct employment as well as the additional 90 supported jobs

CUSTOMER TESTIMONIALS

"Terrific attitudes"
"great attention to detail"

"I have worked with Skyline for many years. From the management team, warehouse, customer service and all the workers there, I highly recommend Skyline. They go above and beyond to make sure the services they provide are set to high standards. They are very quality driven, and I am pleased with all the products they have provided us."

K. – Packaging Production Planner

"I love working with the Skyline team. During our projects together, Skyline has shown great communication and partnership, always going the extra mile to ensure the customers' satisfaction with their product. I have and will continue to recommend Skyline for any new opportunities that are available."

D. – Sales Account Manager

"Our Company has been working with Skyline Center for over 30 years. In the 8 years that I have worked at my location, I worked with them countless times. They are meticulous in their planning, receiving, assembling, packing, and shipping of our materials. They ask questions whenever they identify an anomaly with the product or information, and quickly resolve with our participation. They are accommodating, kind, great to work with, and do their absolute best on every project. I hope you can find a way to incorporate their custom services into your business' needs, as they are worthy of being supported! Grateful for our long-standing partnership!"

P. – Expert, Technical Packaging

"I have been working with Skyline on co-packing projects for over 15 years and can't say enough good things about the staff and management. They have handled projects of all sizes for us and, at times, have juggled multiple large projects at one time. We have dealt with many challenges in meeting deadlines over the years, especially through all of the COVID supply chain issues, but the Skyline team always comes through for us, doing whatever they can to meet our needs. The customer service they provide is the best I've ever experienced. They are true partners in every sense of the word!"

M. - Senior Specialist, Supply Chain Operations
